Subject: Industrial Visit of our Pharmacy Students on 29/11/2019

Respected Sir

The Dr. APJ Abdul Kalam University has been launched with a vision to transform its students into competent, inspired and responsible professionals. The University has a mission to provide quality education in most of the disciplines of Engineering, Applied Science, Management, Health sciences, Education, Law and Humanities & Social sciences up to the post graduate level including M.Phil and Ph.D.

We believe that apart from the academic learning, the focus should also be on industry integrated research and problem solving pedagogy so it will help students in direct response to the demands placed on future young professionals.

Hence, as a part of the curriculum, the students are expected to visit industries from the manufacturing sector so they can understand the practical aspects of classroom learning.

Sir, we would be glad if you could provide our students an opportunity to visit your esteemed organization on 29/11/2019

The number of students would be 25 and will be accompanied by 2 faculty members.

We assure you that the students will abide by the rules of your plant and will maintain the decorum and discipline of the same.

Sub: Industrial Visit of our Pharmacy Student.

Greetings from Dr. APJ Abdul Kalam University, Indore.

The Dr. APJ Abdul Kalam University has been launched with a vision to transform its students into competent, inspired and responsible professionals. The University has a mission to provide quality education in most of the disciplines of Engineering, Applied Science, Management, Health sciences, Education, Law and Humanities & Social sciences up to the post graduate level including M.Phil and Ph.D.

We believe that apart from the academic learning, the focus should also be on industry integrated research and problem solving pedagogy so it will help students in direct response to the demands placed on future young professionals.

Hence, as a part of the curriculum, the students are expected to visit industries from the manufacturing sector so they can understand the practical aspects of classroom learning.

Sir, we would be glad if you could provide our Pharmacy students an opportunity to visit your esteemed organization on any date of your convenience in the month June 2022. The number of students would be 20 and will be accompanied by 2 faculty members.

We assure you that the students will abide by the rules of your plant and will maintain the decorum and discipline of the same.

Industrial Visit of Pharmacy Students at Ipca Laboratories Limited, Pihampur on 5th December, 2022

Immense pleasure to share that Faculty of Pharmacy, Dr. A. P. J. Abdul kalam University, Indore Organized an Industrial Visit on 05/12/2022 at IPCA Laboratories Ltd, Pithampur, Industrial visit grant the students a great opportunity to interact with industry and know more about industrial environment. They provided the students with an opportunity to learn practically through interaction, working methods and employment practices. It gives the students an exposure to current work practices as opposed to theoretical knowledge being taught at their college classrooms. It helped students to combine their theoretical knowledge of business operations with the practical knowledge of its actual functioning.

Department visited :-

- *Industrial infrastructure*
- *AMV (analytical method validation)*
- *Quality assurance*
- *Quality control*
- *Pollution control*
- *Fire and safety*

Also provided the knowledge about the Purifires

Water supply managent. Industrial visit was fruitful for our students and as a great experience.

Respected Sir,
Senior General Manager Operations,
Mrs. Ipca Laboratories Limited,
DEWAS, M.P.

Sub: Industrial Visit of our Pharmacy Students.

Greetings from Dr. APJ Abdul Kalam University, Indore.

The Dr. APJ Abdul Kalam University has been launched with a vision to transform its students into competent, inspired and responsible professionals. The University has a mission to provide quality education in most of the disciplines of Pharmacy, Applied Science, Management, Health sciences, Education, Law and Humanities & Social sciences up to the post graduate level including M.Phil, Ph.D. and RANS.

We believe that apart from the academic learning, the focus should also be on industry integrated research and problem solving pedagogy so it will help students in direct response to the demands placed on future young professionals.

Hence, as a part of the curriculum, the students are expected to visit industries from the manufacturing sector so they can understand the practical aspects of classroom learning.

Sir, we would be glad if you could provide our Pharmacy students an opportunity to visit your esteemed organization on 27th April, 2024 (Saturday). The number of students would be 25 and will be accompanied by 2 faculty members.

We assure you that the students will abide by the rules of your plant and will maintain the decorum and discipline of the same.

Regards
